NUMBER 27

PROGRESS ON RIGHT WAY IS PROMISED

2 MILLION DOLLAR TURKEY CROP

TURKEY CROP BRINGING FARMERS BIG MONEY

Milam County's 1950 turkey crop will gross the farmers approximately \$2,000,000 by the end of the season. This estimate of the value of turkeys produced in the county is not entirely accurate but is a fair example of what diversified farming is doing for this agricultural area.

Bassel Wilson of the Wilson Produce Company in Cameron has been one of the leading advocates of increased production. His firm placed 32,000 poult with farmers in the spring and these turkeys are now coming back in terms of dollars to the farmers.

The program undertaken by Mr. Wilson is a practical approach to the poultry industry because his company helps the farmers to finance its program and is properly supervised. Mr. Wilson has bought around 10,000 turkeys thus far, but the movement has only begun. He said the county would produce around 200,000 turkeys this year, an estimate.

Taking the price on Tuesday and estimating the average weight, turkeys were bringing around \$9 each. Marketing turkeys will get underway on a large scale around November 1.

Other Cameron buyers and processors are also active in the market and they are Fairmont Creamery and Heitman Produce. The only drawback is that Cameron does not have an adequate processing plant.

More than 40 carloads of turkeys have already been shipped from Rockdale. They are processed from territories adjacent to the city as well as in Milam County.

ESTIMATE IS GIVEN ON COST OF RIGHT OF WAY

The first estimate on the probable cost of the right-of-way for highways 190 and 36 through the city has been made by O. B. Horstmann who was chairman of a committee to contact property owners.

Mr. Horstmann has estimated that on all property substantially agreed to be tendered, the cost will be \$23,125.00.

Of his amount, an allowance of \$2,500 is made for moving some houses and installing plumbing.

There are four property owners who have not agreed on a price they will ask for their footage. When the committee was formed to go before the City Council Tuesday night to ask the issue of warrants to pay for this right of way, Mr. Horstmann compiled the estimate from a record which has been filed with the city.

There was no way to be accurate on what the ultimate cost would be since four property owners have not been satisfied. The total cost of the right of way may run around \$30,000.00. The city will have to build curbs and gutters on around 9,000 feet of the right of way. Whether the city can get any concession in highway funds to help on this construction is not known. It is being assumed that the city will have to bear this portion of the expense.

On Tuesday night, the City Council passed a motion agreeing to issue up to \$50,000.00 in warrants to acquire this property along the right of way and of course, no warrants will be executed that are not needed.

TRUMAN ISSUES WARNING TO RUSSIA

Texas Power & Light Pays County Taxes; The Total Is \$10,008.88

Texas Power and Light Company Wednesday paid its county taxes.

Henry Siebman, manager of the company here, delivered to Valter White, a check for \$10,008.88 in payment of county tax for the power company.

Texas Power and Light Company is the largest taxpayer in the city of Cameron also and the check delivered to the county does not cover city or other taxes paid by the company.

Ideal Hatchery Wins Trophies and Ribbons At State Fair Friday

The Ideal Hatchery was awarded a number of trophies and blue ribbons in the Chicken Breeder Show at the State Fair in Dallas last week.

Leo Fuchs, operator of the hatchery said the hatchery entered 6 pens of White Leghorns. All placed as Superior, winning Blue Ribbons.

One pen placed as champion and also Grand Champion and was awarded a trophy and the other five pens placed as the best display of the entire show and were awarded the display trophy, because they scored more points than those of any other breeder.

Monroe Fuchs, son of Mr. Fuchs and member of the FFA Chapter at Yoe High School, entered 1 pen of White Rocks which placed superior and also reserve champion. He also entered a pen of New Hampshire Reds, placing superior and was awarded the Champion New Hampshire pen ribbon.

Ed Parnell, Instructor of Poultry Husbandry at A & M College and former Vocational Agriculture Teacher at Yoe High, judged the entire poultry breeder's show.

Aggies Take On TCU In Conference Game At College Saturday

What happens when the most explosive offensive football team in the Southwest Conference squares off against the toughest defensive club?

That question will be answered on Kyle Field here Saturday afternoon when Texas A & M points its offensive guns at the hard-to-score-on TCU Horned Frogs.

In four games, the Aggies have averaged six touchdowns per game while piling up 162 points. Meanwhile, TCU has averaged two TD's per game but has held its four opponents to 32 points, an average of eight points per game.

The opposition of the two teams has been about the same—TCU has not faced an opponent as strong as Oklahoma or as weak as VMI. Both teams played Texas Tech.

The Horned Frogs may fool the fans by waving the crying towel this week, but they won't fool Aggie Coaches and players. The Cadets remember that TCU was supposed to bow to big and deep Arkansas two weeks ago. And they also recall that Texas A & M has not won from TCU since 1946.

Two years ago, the Aggies led TCU 14-13, with fewer than five minutes to play. The cadets had the Frogs backed into a hole—back inside their own 25, but they climbed out, scored a touchdown, then counted again on a pass interception to win, 27-14.

Friends of Mrs. N. Y. Hayes will be glad to know that she is improving nicely at the home of her daughter, Mrs. J. P. Coward, after several months illness. She attended the morning service of the Fellowship Meeting at the Assembly of God Church Tuesday October 10, which was her first time to be out in several weeks.

OPPORTUNITIES OPEN IN NATIONAL GUARD

An effort will be made to fill all vacancies in Battery C, 649th Anti-aircraft Artillery Battalion, Captain Rudolph Michalka said when announcing the National Guards annual recruiting campaign was now under way.

"There are a number of young fellows here who would make good Guardsmen and we would like to have them in Battery C," he said.

He added that there seems to be some misconception as to whether a young man in the 19-25 draft age bracket is eligible to join the Guard. The facts are that anyone who has not yet received his notice from the draft board to appear for his physical examination is free to enlist in the National Guard. However, the Guard cannot accept anyone who already has received his notice either for physical examination or for induction.

"We believe the National Guard has much more to offer a young man than anything he might gain by taking his chances with the draft," Captain Michalka said.

If a young man is drafted, he pointed out, he is sent to one of the Army's reception centers, where he is assigned to some branch of the Army, not where he necessarily would like to be, but where men are needed at that particular time. He then usually is shipped to some distant camp for training among total strangers.

"But is he joins the Guard he trains in his own home town in spare time for 2 hours one night each week. He is among his friends and acquaintances, and if his unit is called up, he sees service with them."

The Guard accepts enlistments from men 17 to 35 years of age, both veteran and non-veteran. Veterans usually can enlist in their wartime grades. Battery C has a number of openings, many of them with good ratings. Anyone interested should contact M-Sgt. William S. (Shirley) McLean at the Armory either on week days or on Monday evening drill night.

SCHOOL BOARD DECLINES OPERATE PARISH SET UP

Cameron will not have a dual system of schools unless the Catholics are willing to surrender their religious supervision of the parochial school.

The Cameron School Board, Wednesday night, turned back without a vote a request made by Father George J. Duda, priest of St. Monica's Parish, that the board take over the Catholic School with limited supervision. The board would not agree and rightly so, because under the Gilmer-Aikin School Law, there can be no divided obedience to the statute.

This request springs from a directive received by the Cameron School Board from the Department of Education at Austin prohibiting the use of public school buses to transport children to a church school.

The board, knowing of the existence of this provision of law "looked the other way" and waited until such time as it had no option except to enforce the law.

Dr. Clifford Swift, President of the Board, and Superintendent W. T. Hanes went to Austin during the summer with Father Duda and tried to get the state to authorize transportation of Catholic children. Some two weeks ago, Superintendent Hanes went back to Austin with Father (Continued Page Seven, Section Two)

Fred Angell, Henry Griffin and Dave Ethridge were in Seminole Thursday of last week.

SOVIETS TOLD WAR TO FOLLOW ANY AGGRESSION

President Truman today challenged Russia to prove her peaceful intentions by lifting the iron curtain and joining this nation in banning the atom bomb.

Fresh from his conference with Gen. Douglas MacArthur on Far Eastern policy, the chief executive suggested four ways in which Russia could give the world "real proof" that she does not want war.

Pending such proof, however, Mr. Truman said that this country would have to continue to build its defenses.

His four-point peace plan for Russia was stated in a nationwide broadcast from San Francisco's war memorial opera house.

"We are not increasing our strength because we want to," Mr. Truman said. "We are increasing our armed strength because Soviet policies leave us no other choice."

Mr. Truman stressed, however that Russia could change this situation.

"If the Soviet Union really wants peace, it must prove it—not by glittering promises and false propaganda, but by living up to the principles of the United Nations charter," he said.

"If the Soviet Union really wants peace, it can prove it—and could have proved it any day since last (turn to page eight)

Tyler Voters Approve 20 Year Franchise Texas Power & Light

TYLER, Oct. 16—The Texas Power & Light company has a 20 year franchise renewable Friday by a popular vote of 1948 to 29.

In an interview Saturday following the election James W. Fair, chairman of the City Commission said: "The tremendous majority in favor of the granting of a franchise is most gratifying to the city commission because we felt when we approved and submitted this question to our citizens its passage would be to the best interest of all. Certainly no one can doubt the fact that this large majority was also a vote of confidence for the Texas Power & Light company which has not only served the city of Tyler for the past 38 years, but has served us well."

Rev. Samuel Goldberg At Tabernacle Sunday

Rev. Samuel Goldberg, a former Hebrew minister, will be at the Cameron Gospel Tabernacle for two services on Sunday, October 22.

Rev. Goldberg was born in Russia. He joined the Christian faith and has been a missionary, doing extensive work in forty American states. He graduated from Moody Bible Institute in Chicago and was ordained a minister. He will tell his story here Sunday.

Rev. H. M. Bowley, pastor of the Gospel Tabernacle, has extended a cordial invitation to the public and urges all of his members to be present Sunday.

Harry Haraway Sets Neat Pace In Sale At Western Auto Store

Setting a neat pace in the march of merchandising in Cameron this fall is Harry Haraway at the Western Auto Associate Store.

Mr. Haraway, a consistently good merchandiser, comes forward this week with a message to buyers in this newspaper and opportunities were never better in this big store on East 1st street.

Western Auto Associate Store in Cameron sells a wide variety of merchandise, auto supplies and home appliances and Mr. Haraway reports good business and is looking forward to a big week end.

THREE MEDICAL MEN IN CAMERON SIGN MONDAY

Cameron doctors were beginning to register for the draft under new selective service regulations.

Regulations require all physicians, dentists, and veterinarians under 50 years of age to sign up for ultimate induction.

Monday morning only those who were set aside during the late war to complete their education were required to register.

Dr. Marvin Bartlett, physician, Dr. George Bowman, dentist and Dr. Robert Tittsworth, veterinarian were the only ones required to register at this time in Cameron. Whether other towns in the county would have registrants is not known.

Dr. David Shapiro who recently attended a meeting of the committee of the State Medical Association in Austin with Dr. Clifford Swift, said that only those who were permitted to finish school during the late war and had less than 21 months service are to be called soon.

Regulations to draft doctors do not provide calling up men over 50 years of age. Physicians next in line will be those trained during the war and have over 21 months military service.

Dr. Jack Walker of Cameron is one of the local physicians who is in the second classification.

All physicians, dentists and veterinarians coming under the prior regulation of the draft will be called first. They may volunteer and are being urged to do so. Eventually all doctors under 50 are destined for the armed services.

ARMY DUE DECISION SOON ON LABORATORY

Cameron was waiting a decision by army engineers on a site for the location of the Quartermaster Laboratory, costing \$11,000,000.

According to the latest information, a decision was due Tuesday but matters of this kind usually take longer and no definite information was expected immediately.

Additional information has been sent in on Cameron, it was disclosed by L. G. Smith, manager at the Chamber of Commerce and this city is still on the list of sites for the lab, although heavy voting centers are making a determined bid for the prized plum.

Just what plans are being projected to meet the financial terms required for the laboratory, is not known. They appeared insurmountable in view of the fact that the city has no money even to buy a small right-of-way and it has been said that \$750,000 would be the minimum requirement to land this lab.

Small fish can nibble on a big bait and its darned good exercise.

In the meantime a lot of credit is due the boys at the Chamber of Commerce along with others for going all out to get a federal plum.

This City in the grassroots has had no consideration whatever in the vast military outlay in this congressional district.

ARRIVES AT FORT HOOD

Captain Pete Bove of Rotan, New Mexico has arrived at Fort Hood for the second time for military duty. He is 30 years of age and served for 2½ years with the Tank Destroyers in the European Theatre of Operations. Mrs. Bove will join her husband as soon as living quarters are available. She will be remembered here as the former Jerry Chambers, daughter of Mrs. Maude Chambers.

Mr. and Mrs. Alvin Baggerly and children visited their daughter in Buckholts Sunday.

RIGHT OF WAY PROGRESS IS MADE IN CAMERON

The city government rated higher today in the estimation of the citizens for its unanimous vote last night to go ahead at once to secure right-of-way on Highways 190 and 36.

The City Council voted unanimously to issue warrants to pay for the right of-way and will take advantage of the most sensible solution of the problem, as had been advocated by this newspaper and business men generally who recognize the necessity to utilize current tax money for something worthwhile.

A delegation of citizens representing civic organizations were at the meeting last night as were representatives from the Chamber of Commerce, Junior Chamber of Commerce, Rotary Club, Lions Club and the American Legion and other civic leaders.

Shortly after the council convened, A. W. McCullin, spokesman for the delegation urged the council to speed up action on acquiring the right-of-way and to finance it in the best possible way.

Alderman Bob Terry asked Mr. McCullin, how much the right-of-way will cost? Alderman Perkins asked E. A. Perrin to answer the question. Mr. Perrin estimated the total cost around \$40,000.

Mr. Terry then asked about property owners who have not agreed to sell footage. Mr. Perrin suggested that all property tendered be acquired and the council institute condemnation proceedings wherever controversy has arisen.

Alderman Milton Schiller made the motion that the council issue warrants (turn to page eight)

Dr. Mark Magers Guest Speaker At The Lions Luncheon Tuesday

Dr. Mark Magers, minister at First Methodist Church, was guest speaker at the Lions Club Luncheon Tuesday.

Dr. Magers brought the club an interesting lecture on Lions in reference to its place in the state national and international set up as a civic organization. He pointed out that fellowship, friendship and brotherly love should be stressed in the organization and also if these three factors were fully exemplified in all civic and other organizations this world would be a better place in which to live.

E. C. Cole introduced the speaker and Herbert Nance presided over the program in the absence of Woodrow Lowe, president.

United Nations Flag To Fly On Court House Lawn Here

A brief United Nations program will be held Tuesday morning, Oct. 24th at 10:30 A. M. on the Court-house Square when a United Nations Flag, made by the Gay Hill Home Demonstration Club, will be presented to County Judge Dan Tyson. The United Nations Flag will be flown along-side the United States Flag at the Court house for the day.

Business people and their employees and the general public are asked to attend the program.

Rexall 1c Sale At New Cameron Drug To Open Thursday

The Rexall 1c sale, come to be a bargain institution in the American household, gets underway at New Cameron Drug Co. Thursday, October 19.

Rising prices, the lack of which have not been seen since peak war days, makes this sale at this time most unusual.

Earl Curtis, owner of the store says that the selection of merchandise shown is the best he has seen in many years.

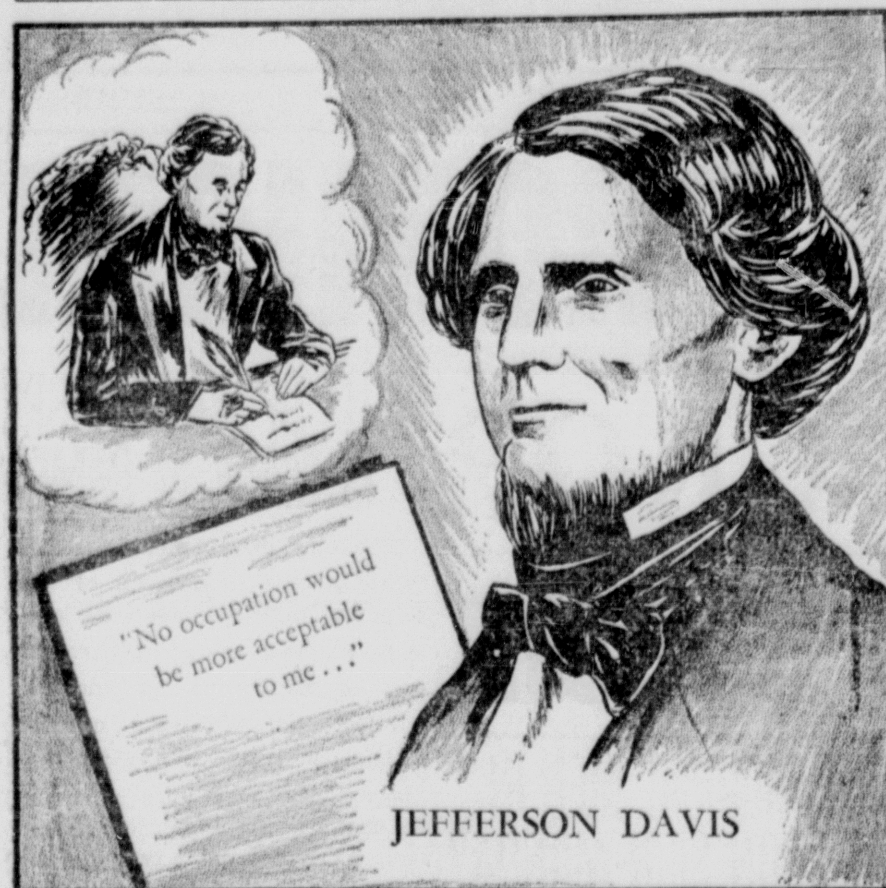

The Rexall 1c sale has been an annual event in Cameron for many years and folks will be on hand Thursday and through October 23 to stock up on needed items in the household.

Go To Church Sunday.

Our first state college—Texas A. and M. is now in its seventy-fifth year

Jefferson Davis, former president of the Confederacy, and one of the best-loved men in the South, was the first man elected to the Presidency of the Agricultural and Mechanical College of Texas. In June of 1875, the board of directors for the newly-authorized school met in Bryan and voted to offer the post to Davis, then living in retirement in his native Mississippi. Governor Richard Coke, chairman of the board, tendered the offer in a manner typical of the feeling of the times. "As the representative, not only of the Board of Directors of the Agricultural and Mechanical College of Texas," he wrote, "but in behalf of the State of Texas and all her people, I ask that you come and live with and be one of us, and make your home and resting place, after a long and eventful public service, among a people who will never cease to love and honor you." The former President replied that "No occupation would be more acceptable to me..." but that "In the consciousness that I could not satisfactorily perform the duties of the office," he must decline to accept it. In poor health, Davis was never again able to assume major public duties. He recommended his friend, Thomas Gathright, then Superintendent of Public Instruction for Mississippi, for the post, and Gathright became the college's first president.

POLL HERE MAY CHANGE ORDER OF OBSERVANCE

Holidays will come at frequent intervals during the remainder of the year and the Chamber of Commerce has sent out a referendum on proposed changes in observance.

Since there is some confusion about Thanksgiving Day, it is important to note Cameron will observe the last Thursday in November and that will be the last day in the month.

Gov. Allan Shivers has proclaimed two Thanksgiving Days but most folks around here feel that one day will be sufficient to re-count their blessings.

The first holiday will be November 11 and it has been customary in Cameron for the city to close, although November 11, 1950 falls on Saturday and most business houses are expected to observe only a portion of the day. There will be exceptions, notably banks, newspapers and utility companies.

The American Legion and other veterans will stage their annual Armistice Day Dinner. It will be the thirtieth year for the annual Thanksgiving Dinner for the Legion Post. They staged their first dinner on November 11, 1920. The program this year

will follow the usual outline.

The next holiday will be Thanksgiving November 30 and the day on which Texas and A & M play their annual football game. It has been customary in the past to observe July 4, Armistice Day, Thanksgiving and Christmas. The city has never observed Decoration Day, Labor Day or January 1.

The Chamber of Commerce is asking a vote on whether the city will observe Labor Day and January 1. Some say they would like to join surrounding cities and observe these two days.

Banks always close on January 1 but working folks get in a few early licks at the new year in order to get a head start on the pressing problems ahead.

Mrs. Sherwood McClaren gave a party at her home recently for the Marlow Baptist Church. The women of the church have been meeting regularly and working on different projects in order to secure money to send to the Roundrock Orphans Home. Everyone had a nice time and refreshments were served.

Mr. and Mrs. Grady Fikes and family visited their son and wife, Mr. and Mrs. G. C. Fikes Jr., of Dallas over the week end.

Baptist Choir Meets With New Director

The choir at First Baptist Church recently held its first meeting with the new music director, Royce Curtis in charge.

Officers as follows were elected: Mrs. C. W. Bradbury, president, Charlotte Collins, secretary, Mildred Thornton social chairman, Mrs. W. E. Kuehl Soprano group captain, Mary Jewell Fanning alto group captain, Francis Cox tenor group captain and M. G. Cox, bass group captain.

Meeting time for the choir will be at 7:30 each Thursday night.

DEWEY WILL SUPPORT 'IKE' FOR PRESIDENT

NEW YORK, Oct. 15—Gov. Thomas E. Dewey said flatly today he was backing Gen. Dwight D. Eisenhower for President in 1952 and would not be a candidate himself.

Dewey made the statement during an interview on the National Broadcasting Co.'s "Meet the Press" television show.

He was asked: "Governor, if you are not going to run, do you have any candidates in mind?"

"Well, it's a little early," Dewey replied, "but we have in New York a very great world figure."

"And if I should be re-elected Governor, and have influence with the New York delegation, I would recommend to them that they support General Eisenhower for president, if he would accept a draft."

He added that he had not asked the Columbia University president whether he would be willing to run.

Eisenhower could not be reached

The Cameron Herald

immediately for comment.

His two major opponents would be Senator Robert A. Taft, Republican of Ohio, "Mr. Republican in the Senate, and Governor Earl Warren of California, Dewey's running mate in 1948. Both Taft and Warren are up for re-election in November and their candidate status cannot be fully determined until the votes are in.

Dewey, in as plain language as possible, severed himself permanently from any future campaigns for the presidency.

"I will under no circumstances that I can conceive of or that would possibly exist accept the nomination for the Presidency in 1952 and I doubt if there is any possibility that the situation would ever arise thereafter," he declared.

Miss Virginia Brown is spending a week in Cameron visiting her parents. Miss Brown has completed an eight month course at Draughan's Business College in Dallas. She has a chance of employment at Dallas or Wichita Falls and will begin work very soon.

For a man who's chief stock and trade is track, Paul Burke of Cameron is making quite a name for himself on the Southwest Texas State Bobcat football team.

Burke, a Bobcat squadman in 1948 and 49, broke into the starting lineup this year. Since becoming a regular the 150 pound speedster could easily be tabbed one of the outstanding break-away runners in small college circles.

Repeatedly he has used his track ability to outdistance opponents for long gains. He had his top night

several weeks ago when the Bobcats played Sul Ross State.

Matching runs with Ted Schown, Sul Ross' little All-American, Paul was barely nosed out for the honor of the game's outstanding back.

A track letterman, Burke runs the 100 and 200 yard dashes. He is also a member of the esteemed sprint relay team.

While playing at Cameron's Yoe High Schol, Burke won four football letters in addition to being named on the 1945 All Central Texas football team.

Chairman Black Calls Disaster Meeting For American Red Cross

Carl C. Black, disaster chairman for the Milam County Red Cross has called a county-wide meeting for Tuesday, October 24, at 8 . M. in district court room to organize communities and the county as a whole, to meet disasters including tornadoes, floods, etc., and to enlist emergency workers in case of Atomic bomb and war disasters. All over the nation, civilian defense organizations are being set up. In the event of an A bomb explosion, well trained workers must be ready to assume responsibility in their own community because help from other sources will be unable to

enter that territory for a set period of time.

While Milam County may not be a profitable A bomb target because it is comparatively thinly populated and there are no major war industries here, she still must be prepared to meet a calamity, Sheriff Black says. Tornadoes, fires and other disasters might be more hazardous here and if trained workers and cooperators know their places and can fit immediately into the program of caring for the injured, and have available the community's plan for shelter, food and protective measures, much more rapid and efficient aid can be administered.

All phases of Red Cross work are important and Milam County has always done her part in contributing to the program, but the disaster set-

up is one division of the work that every citizen of the county should be anxious to assist with, the chairman points out.

Medical aid after an A bomb attack would be difficult; communities must be educated to help themselves. Doctors, nurses and firemen would be as seriously hurt as anyone. Every citizen should know what to do both before and after an atomic bomb strikes. . . he should turn away from the flash, cover exposed areas of the body as well as possible, get inside a building or under a tree to escape flying debris, and wash as well as possible with plain soap and water.

Radio activity cannot be destroyed but must be allowed to dissipate itself. That is why a community must rely to a certain extent upon what is immediately at hand.

Valter White, as chairman of the Milam County Red Cross, Mrs. Grady Stidham, home service chairman, Mrs. E. G. Lowe, executive secretary and Mr. Black in the disaster work of other officers will cooperate with the Red Cross.

Interested persons are urged to attend the meeting Tuesday evening or to see that their community is well represented and duly organized.

Mr. and Mrs. Walton Houston of Marlin visited Mr. and Mrs. Martin Russell and Mrs. W. H. Houston over the week end.

Mrs. D. H. Slaughter and son, Jack attended the Texas-Oklahoma game and the Ice Cycles at the Dallas fair Saturday.

Cameron Girl Among 150 Dancers at College Homecoming Oct. 21

Martha Nell Lewis of Cameron is among the 150 dancing girls who will perform at the halftime ceremony at the Homecoming game at Southwest Texas State Teachers College Oct. 21.

The theme for the entertainment will be the United Nations Security Council. The College band and five groups of thirty girls will perform to music typical of the five countries—the United States, China, France, Great Britain, and Russia. The last group will execute a dance which will be in keeping with Russia's role in the U. N.

Lunch Room Service Should Be Supported By Student Body

Menus at the cafeteria at Ada Henderson School for the current week are as follows: Monday, Wieners and Kraut, creamed potatoes, milk, bread and pie; Tuesday, navy beans and ham hock, mixed salad, cornbread, honey balls, bread and milk; Wednesday, meat pie, combination salad, bread, milk and peaches; Thursday, beef stew, English peas, bread, milk, pie; Friday, black-eyed peas, creamed potatoes, Carrot strips, bread and ginger break.

Students are being urged to use the cafeteria as the menus provide a balanced meal and should be supported by the entire student body so that the lunch room can afford the best in foods.

Mr. and Mrs. John Brasher visited in San Antonio Sunday and went to Giddings Sunday night to visit friends there. They returned to Cameron Monday morning.

Mr. and Mrs. E. C. McFarland, Mr. and Mrs. Parker Lane and Dr. J. R. Parker attended the Cameron-Taylor game in Taylr Friday night .

Mr. and Mrs. Bryant McLaughlin and two children of Taylor were week end guests in the home of Judge and Laughlin's parents, Mr. and Mrs. Frank Richter, Sr.

Mrs. A. L. Asp and daughter, Priscilla Diana of Brownwood and Mr. and Mrs. L. G. Hayes and son of Waco visited in the home of Mrs. Leona Walton and daughters here Sunday.

MARRIED MEN EXEMPTION TO DEPENDENCY RULES

(From the Daily)

WASHINGTON, Oct. 15—National Selective Service Director Lewis B. Hershey disclosed today that he may ask President Truman to wipe out almost all draft dependency deferments except for fathers.

He made the statement as some 19,000 young physicians, dentists and veterinarians prepared to register for a possible twenty one months military service. Of the total, 1,522 face induction by Jan 15 unless they volunteer first.

Hershey's disclosure, made during a Gannet News Service radio interview, could mean that many childless married men in the 19-through 25 age bracket and those who help support a parent or a brother or sister face induction about the first of the year. The only basis for deferment in these groups would be "extreme hardship."

While emphasizing that no formal requests have gone to the White House, Hershey said current thinking is in terms of "tightening dependency on perhaps everything except a registrant who has children."

He hinted it even may be necessary to take some fathers if the armed services are to meet Mr. Truman's goal of a 3,000,000 man fighting force by next June. In justification, he noted that many reservists with children already have been called.

Hershey said tentative plans call for induction of men with dependents in the following order: men who contribute to the support of a parent or some other relative; childless married men, and men with children.

Ask for doctors, the first of whom will take their preinduction physical examinations Nov. 15, he said officials still hope enough medics will volunteer to make the draft unnecessary.

If not, the Army will launch the program Nov. 15 by taking 300 physicians. It also has called for 300 doctors, 300 dentists and 50 veterinarians by Dec. 15, and 322 doctors 200 dentists and 50 veterinarians by Jan 15.

Go To Church Sunday.

Two Pay Fines In County Court Here For Driving While Drunk

Two white men have been fined in County court for driving automobiles while drunk.

David Gorce of Buckholts was arrested here Saturday night and was arraigned in County Court Monday on pleas of guilty before Judge Dan Tyson paid a fine of \$100.00.

Wiley Conrad Cody of Fort Hood was arrested Saturday night and on Monday appeared before Judge Dan Tyson and confessed to the charges. He was fined \$100.00.

To these fines are added the costs of court and in addition the law automatically suspends license to drive.

Miss Suzanne Curtis, little daughter of Mr. and Mrs. Bob Curtis of Houston, visited her grandmother, Mrs. Bob Kirk over the week end.

Gause Pee Wee Team Beats Lexington 20-0

The Gause Pee Wee Football Team defeated the Lexington Pee Wee Team Tuesday 20-0 at the Gause field.

The Gause team scored early in the first quarter on a pass from Wayne Johns to John Hafley and came right back to score another with Jones passing to Harold Lange

but was called back on account of a penalty.

Later in the second quarter on a drive that netted a touchdown, Jones carried over from the 10 yard line. They made several consecutive first downs on this march down field.

In the third quarter the Gause team scored its last touchdown, with Hafley skirting left and behind perfect blocking by Crockett, Baggerly,

Langford and Alford.

Lexington made only one penetration during the entire game and was fighting desperately to score in the fading minutes of the game but Jones recovered a fumble for the Gause team and was injured in the pile up.

The Gause team will meet the San Saba team in an inter-sectional game on October 21 and will play Mexia on October 26.

No admission charge was made at the game but during the half-time \$12.51 was collected to defray cost of the game.

Mr. and Mrs. Marvin Pratt and sons spent Sunday in Milano visiting Mr. and Mrs. C. F. Pratt.

Mr. G. W. Baskin is visiting friends and relatives in Houston for several days.

"A FRIEND INDEED"

Mr. and Mrs. Harold W. Ross put all their eggs in one basket—and make money at it.

From the basement of their Maplewood, Mo., home, the Rosses run a rapidly expanding chicken hatchery. In six years, they've built up a thriving business, depending a lot on their business telephone.

Says Mr. Ross: "Never realized how our telephone helps us save and make money, though, until we kept a five-day record of our telephone calls recently. Now I can see that we depend on our phone to make sales for us, run errands, deliver messages, do a great many important jobs. It's a friend indeed!"

☆☆☆

Each year brings greater progress in your telephone service. New telephones added—greater improvements made! The result: quicker, more trouble-free service for more people. It's a real budget value—that grows in value every year! Southwestern Bell Telephone Co.

Tuesday—One of our customers calls for shipment of baby chicks. Mrs. Ross is hard of hearing, uses a special amplifier. Hears easily.

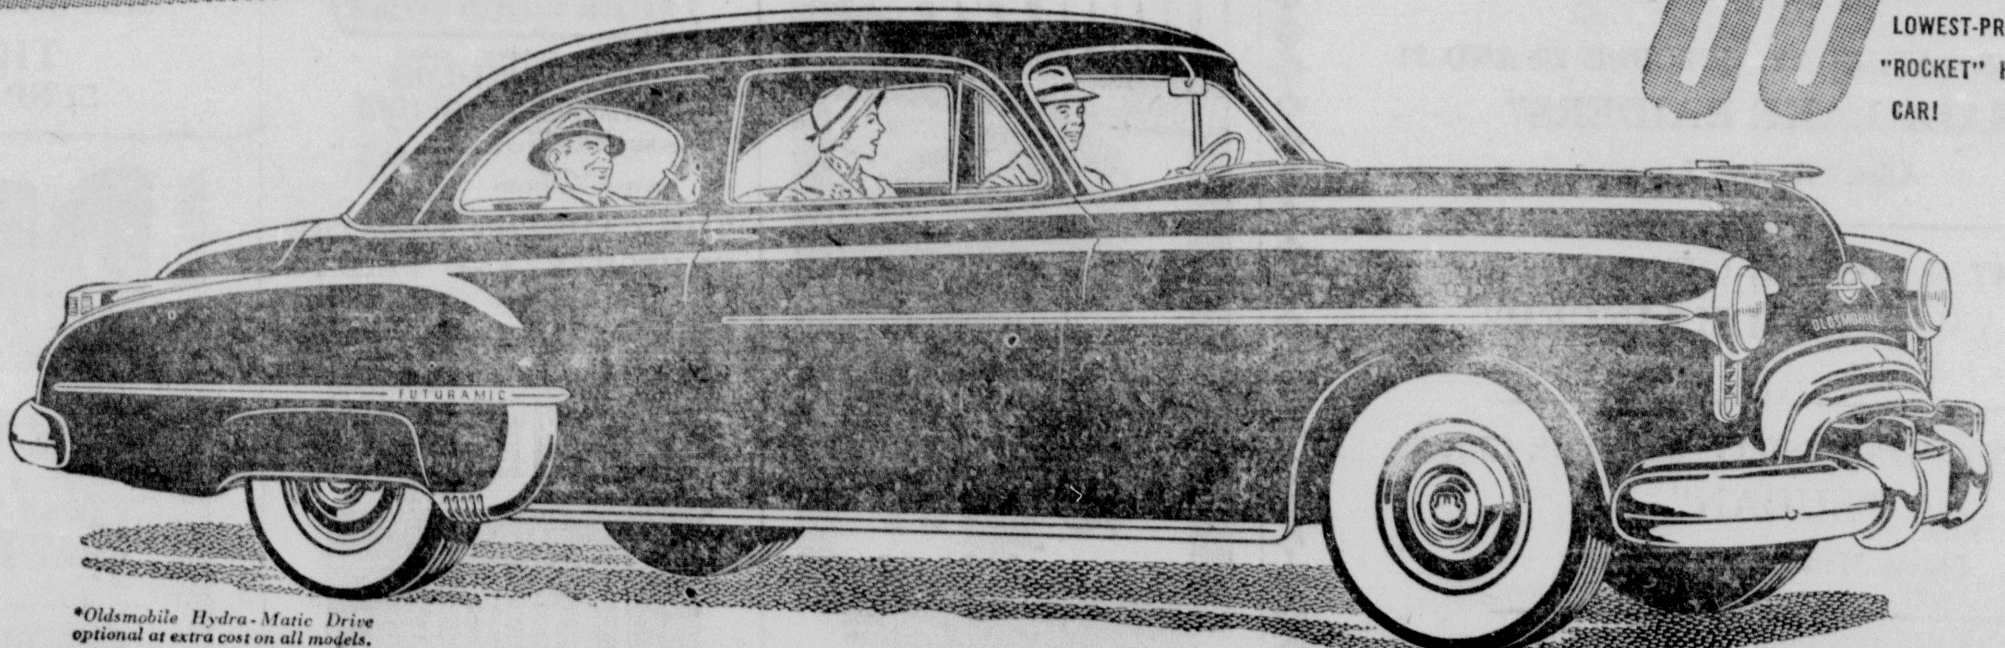

Wednesday—Sister-in-law asks about son who works for us. To save time, Mrs. Ross takes call over extension in our basement.

Thursday—Prospect calls about chick prices and deliveries. Our ad in yellow pages of directory helps build our sales.

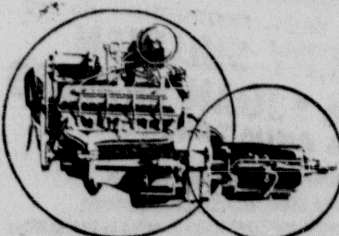

Friday—Feed supplies low—so our helper orders more. Business telephone means low-cost way to carry on all phases of our business.

What else gives so much for so little?

GEORGETOWN RATED TO WIN CONFERENCE

Cameron Yoemen start their conference play with a game in Taylor tonight against the Ducks.

It will be the first conference game for both teams and although the Taylor team is favored to win over Cameron by the smart people who place their money, it is not at all certain that the Yoemen cannot take their conference opener.

Taylor has not played in two weeks. The Yoemen have played four games winning two, tying one and losing one. They have met West, Caldwell, Brenham and the Masonic Home.

Taylor has played four games, have won three and lost one. They have played Franklin, Burnett, Caldwell and Lockhart. They lost heavily to Lockhart. The first conference game in District 21-A was played between Georgetown and Killeen and the Eagles won. Georgetown for the first time in many years is favored to win the District. Other strong teams are Taylor and Cameron and then follow in ratings by Belton, Killeen and Rosebud.

The Yoemen have had one week of rest since they opened their schedule on September 15. They did not play on September 29.

On Friday night October 20, the Yoemen will be host to Killeen in Cameron and then will follow games with Belton and Rosebud in their schedule. The Yoemen will go away for the game with Georgetown and only have three home conference games on the 1950 schedule.

The team is in good condition for the game with Taylor and the coaches are fully aware of the position the team is in with reference to rating and since this will be the opening conference game, it appeared that the Yoemen might come through with the victory. The home ground advantage is with Taylor and Taylor is rated stronger than Cameron this year.

Mr. and Mrs. Kenard Hughes of Houston will be visitors in Cameron until Friday when they will return home. They also visited in Temple Wednesday.

Mr. and Mrs. Sam Cobb and baby daughter of Houston were visitors in the home of Mrs. Cobb's parents, Mr. and Mrs. Albert Schlemmer here the past Sunday.

RIGHT OF WAY—

to purchase right-of-way. Perkins seconded the motion.

Alderman John C. Andres rose and asked the council if the people are aware that taxes would have to be raised. At this juncture the main blow was struck at the present system of waste.

Mr. Perrin told Andres "you know the answer to that question; that no taxes will have to be levied." The audience including some of the aldermen broke into cheers. It was the first indication in years that the people are awakening to the disastrous policy of the council in wasting tax money and failing to properly apply its resources.

Mr. Perkins said if the council did not take some action tonight in securing this all important right-of-way, "the people should demand our resignation" and also said members of the council have been sitting on their bottoms so long that "we have become the laughing stock of the state." No city in the state would have hesitated a minute to have gone after two great highways" he said. Mr. Perkins was roundly applauded.

Mayor Green played his usual role of opposition, making an extended plea for the issuance of bonds but got no help from any member of the council, although 2 members were regarded as opposing the issuance of warrants.

Aldermen August Kunz, Schiller and Perkins have advocated warrants and Mr. Andres said he was not committed to any definite plan and when the vote was taken, voted along with alderman Bob Terry for the warrant plan.

If there is a fly in the ointment, it will show up when the council finally gets around to issuing the securities. Under no circumstances should warrants be issued unless they can be paid off on or before maturity date and a schedule of redemption of at least \$10,000 per year must be adopted if real money is to be saved.

SOVIET TOLD—

(Continued from page one)

June 25th—by joining the rest of the United Nations in calling upon the North Koreans to lay down their arms at once.

"If the Soviet Union really wants peace, it can prove it by lifting the iron curtain and permitting the free exchange of information and ideas.

"If the Soviet Union really wants peace, it can prove it by joining in the efforts of the United Nations to establish a workable system of collective security—a system which will permit the elimination of the atom bomb and the drastic reduction and regulation of all other arms and armed forces."

Mr. Truman added, however, that until Russia did these things, this country was "determined to build up the common defensive strength of the free world."

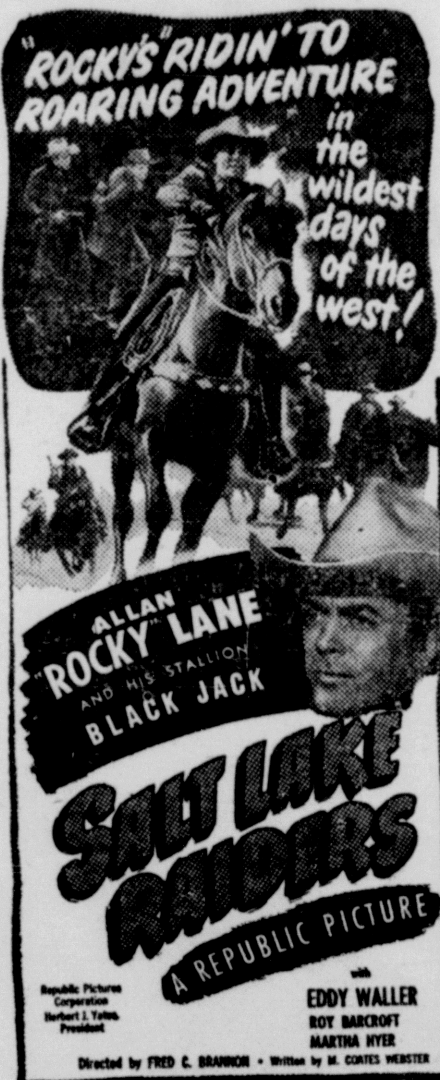

The chief executive repeatedly disclaimed any expansionist aims by this country.

"Let this be crystal clear to all—we have no aggressive designs on Korea or in any other place in the Far East or elsewhere," he said. "No country in the world which really wants peace has any reason to fear the United States. The only victory we seek is the victory of peace."

In a broad statement of Far Eastern policy, the chief executive offered American economic assistance to Asia. He was careful, to point out that assistance would not be forced on any country.

"If we can be of help, we are ready to offer it—but only to those who want it," he said.

In the immediate case of Korea, he promised that resources of the army and the Economic Cooperation administration would be increasingly utilized in the rehabilitation of the war-

torn country.

But the President at several points in his lengthy address underlined the fact that the United States expected other countries to help, too.

Mr. Truman rejected any suggestion of "mystery" about his Wake Island rendezvous with MacArthur, a meeting the President found "very satisfactory."

"I went because I wanted to talk to Gen. MacArthur," he said.

He said he travelled as far as Wake to see the United Nations commander "because I did not want to take him far away from Korea where he is conducting very important operations with great success."

"Events are moving swiftly over there now, and I did not feel he should be away from his post too long," he said.

The chief executive strongly emphasized that the sole United States purpose in Korea was the establishment of peace and independence.

LOWER COST SOUGHT FOR RIGHT OF WAY HERE

Need for action in securing right of way on highways 190 and 36 through the city of Cameron brought about the formation of a committee of business men here Monday to push for an early solution of the problem.

Representatives of the Chamber of Commerce, Junior Chamber of Commerce, The Rotary Club and the Lions Club will go before the City Council tonight to press for action on the right-of-way.

Bill McIntosh, president of the Chamber of Commerce and L. G. Smith, manager, said Tuesday that after carefully analyzing the situation, the committee will ask the Council to buy this right-of-way with warrants.

These business leaders have approached this proposition with a great deal of logic as can be seen, because there should be no thought of a bond election or an increase in the tax rate when the right-of-way can be purchased by utilizing money from the general fund of the city.

It can be shown and will be shown convincingly that it is much more economical to pay for this right-of-way with warrants to be paid off within a few years, than to issue bonds running for twenty years. Although warrants would bear a slightly higher rate of interest, they could be paid off at a faster rate, whereas bonds are issued with fixed maturities and run two or three times as long as warrants. Even though bonds will bear lower rate of interest, the difference in time weigh heavily in favor of warrants.

There are other reasons why warrants should be issued. Among those, no election is required and mainly because no increase in the tax rate would be necessary.

Tax payers in the city of Camtron will give their entire approval to this plan because it is not only a means of expediting the purchase of the right of way but is good sound business.

It is not believed that the Council has committed itself to any definite plan, although one member has mentioned bonds. There is definite need for a complete clarification on the total cost and just what each piece of property will cost. In this way no surplus securities will be issued or voted and the people will know exactly what their obligations will be.

Business men are coming more and more to realize that this city cannot increase its tax rate on so slight a pretext. The people generally realize the value of this right of way and the new highways and they want the City Council to go ahead at once and make these arrangements and press for early signing of deeds.

CARD OF THANKS

We wish to heartily express our thanks to the members of the Walkers Creek Home Demonstration Club and our many friends in and around the community for the lovely shower given us at the Walkers Creek School Saturday night, October 14. We especially want to thank Mrs. V. L. Angell, president of the Club, for her valuable time spent in preparation of the event. To each and everyone who participated in any way, we send you a special "Thank You."

Homemakers At Yoe Attend State Fair In Dallas Saturday

The Homemaking Department at Yoe High School under the supervision of Mrs. W. T. Whatley and Mrs. Beatrice Wiese left by bus Saturday morning for the State Fair in Dallas.

The class convened at Yoe High School at 4:30 A. M. and left around 5. They stopped in Hillsboro for breakfast where the F. F. A. Chapter joined them, also going to Dallas. They arrived in Dallas around 9 A. M. and thoroughly enjoyed the day, seeing the sights and shows and displays at the fair.

At 5 P. M. they boarded the bus and on the way home stopped in Waco at the circle and enjoyed a delightful supper. As they rolled into Cameron the gang started singing, "There's No Place Like Home." Thanking Mr. Wallace, the bus driver, they headed for their respective homes after a day of enjoyment and adventure.

11,000 BALES PROCESSED AT CAMERON COMPRESS

Despite acreage shortage, Milam County harvested a cotton crop that brought in approximately a gross income of \$4,000,000.

This estimate of the value of the 1950 crop is based on a production figure of 17,000 bales. This estimate is arrived at by computing the crop at 40 cents per pound, including the seed at prevailing prices earlier in the season. While cotton has declined, most of the crop was sold at a peak figure.

The government peg price was of little benefit because this year the law of supply and demand operated fully and the crop was one of the smallest in recent history. The price soared to over 40 cents a pound.

At the Cameron Compress Friday morning, P. W. Davis, manager, said a total of 11,000 bales of new cotton had been received for processing. He said a good estimate on the crop

would be around 16,000 bales and might go as high as 17,000.

Cameron has always been a good cotton market and it is estimated that cotton handled through local facilities is valued at around \$3,000,000 for 1950.

In 1951 the government will not impose restrictions on planting and is hopeful the world may consume 16,000,000 bales. In the event the world consumption outlook approaches this estimate, prosperity is ahead for cotton growing areas next year.

Caperton Stores Hold Barbecue

Caperton's Five and Ten Stores in Cameron, Lott and Rosebud had their annual barbecue Wednesday night October 11 at the Caperton Lake.

Approximately 32 employees were entertained with plenty of barbecued chicken and recorded music during the entire party.

After the party ended, the employees of Rosebud and Lott visited the store here admiring the unique arrangements of displays.

Mrs. Lois Haddox spent Sunday in Lyon visiting her sister in law.

The Cameron C Squad Beats Rockdale C Team Tuesday Night 19-6

The Cameron C Squad same home with colors flying Tuesday night when they defeated the Rockdale C team 19-6.

In the first four minutes of play the Cameron team scored their first touchdown when Charles Shuffield took a punt on his own 30 yard line and returned to the Rockdale 25. On 2 more plays Shuffield carried the ball over from the 6 yard line. He added the extra point, running it over.

At the beginning of the second quarter the Cameron team came back to score again with Shuffield making the tally. Wayne failed to add the point.

The Rockdale score came in the middle of the second quarter with several nice runs off of their balanced line box formation by their fullback and pushed it over from the 7 yard line. The P.A.T. fell short.

The third play of the second half was a direct pass from Shuffield to Joe Lee Heitman who ran 60 yards for the final score. This was a beau-

tiful executed play behind perfect blocking he was able to evade the Rockdale team.

The Co-Captains for the game were Wayne Clark and Claudie Sanders. In some good runs. The two teams will Jimmy Retig and Leon Beal turned meat again next Wednesday night October 18, here at 7:30 at the Athletic Field.

Billy Balhorn Goes To Odessa For New J. C. Penney Co. Job

Billy Balhorn who has been an employee at J. C. Penney Co. in Cameron for five years was given a surprise going away party at the new home of Mr. and Mrs. Nathan Wilson in Green addition Tuesday night at 7:30.

He is being transferred to Odessa where he will be employed by the J. C. Penney store there. The employees of the store here expressed their appreciation to Billy for the fine work he has done by presenting him with a nice piece of luggage.

Refreshments of sandwiches, salads, cokes and coffee were served to a number of friends and employees.

CONGRESSMEN REFUSED PLANES BY MILITARY

Defense department said the request of Senator Pepper (D-Fla) and Rep. Poage (D-Tex) for transportation in the Near East by air has been turned down.

An official of the department said that three touring members of congress, Pepper, Poage and Rep. Cooley had been in Tehran. They requested a lift by military plane, the official said, and were given a ride to Dahr-an, in Saudi Arabia.

That was the nearest point at which the three could pick up commercial transportation, the defense official said. Rep. Cooley proceeded on, but Pepper and Poage sought an additional lift from the air force.

This was denied, the official said, on the ground that the two were not traveling on official business.

The three congress members and their wives went to the Interparliamentary Union meeting in Dublin last month and since have been traveling in the Mediterranean area.

It appeared that lack of coordination between the State and Defense

Departments had put Senator Pepper and Representatives Poage and Cooley in an embarrassing position which was not justified by the facts in the case.

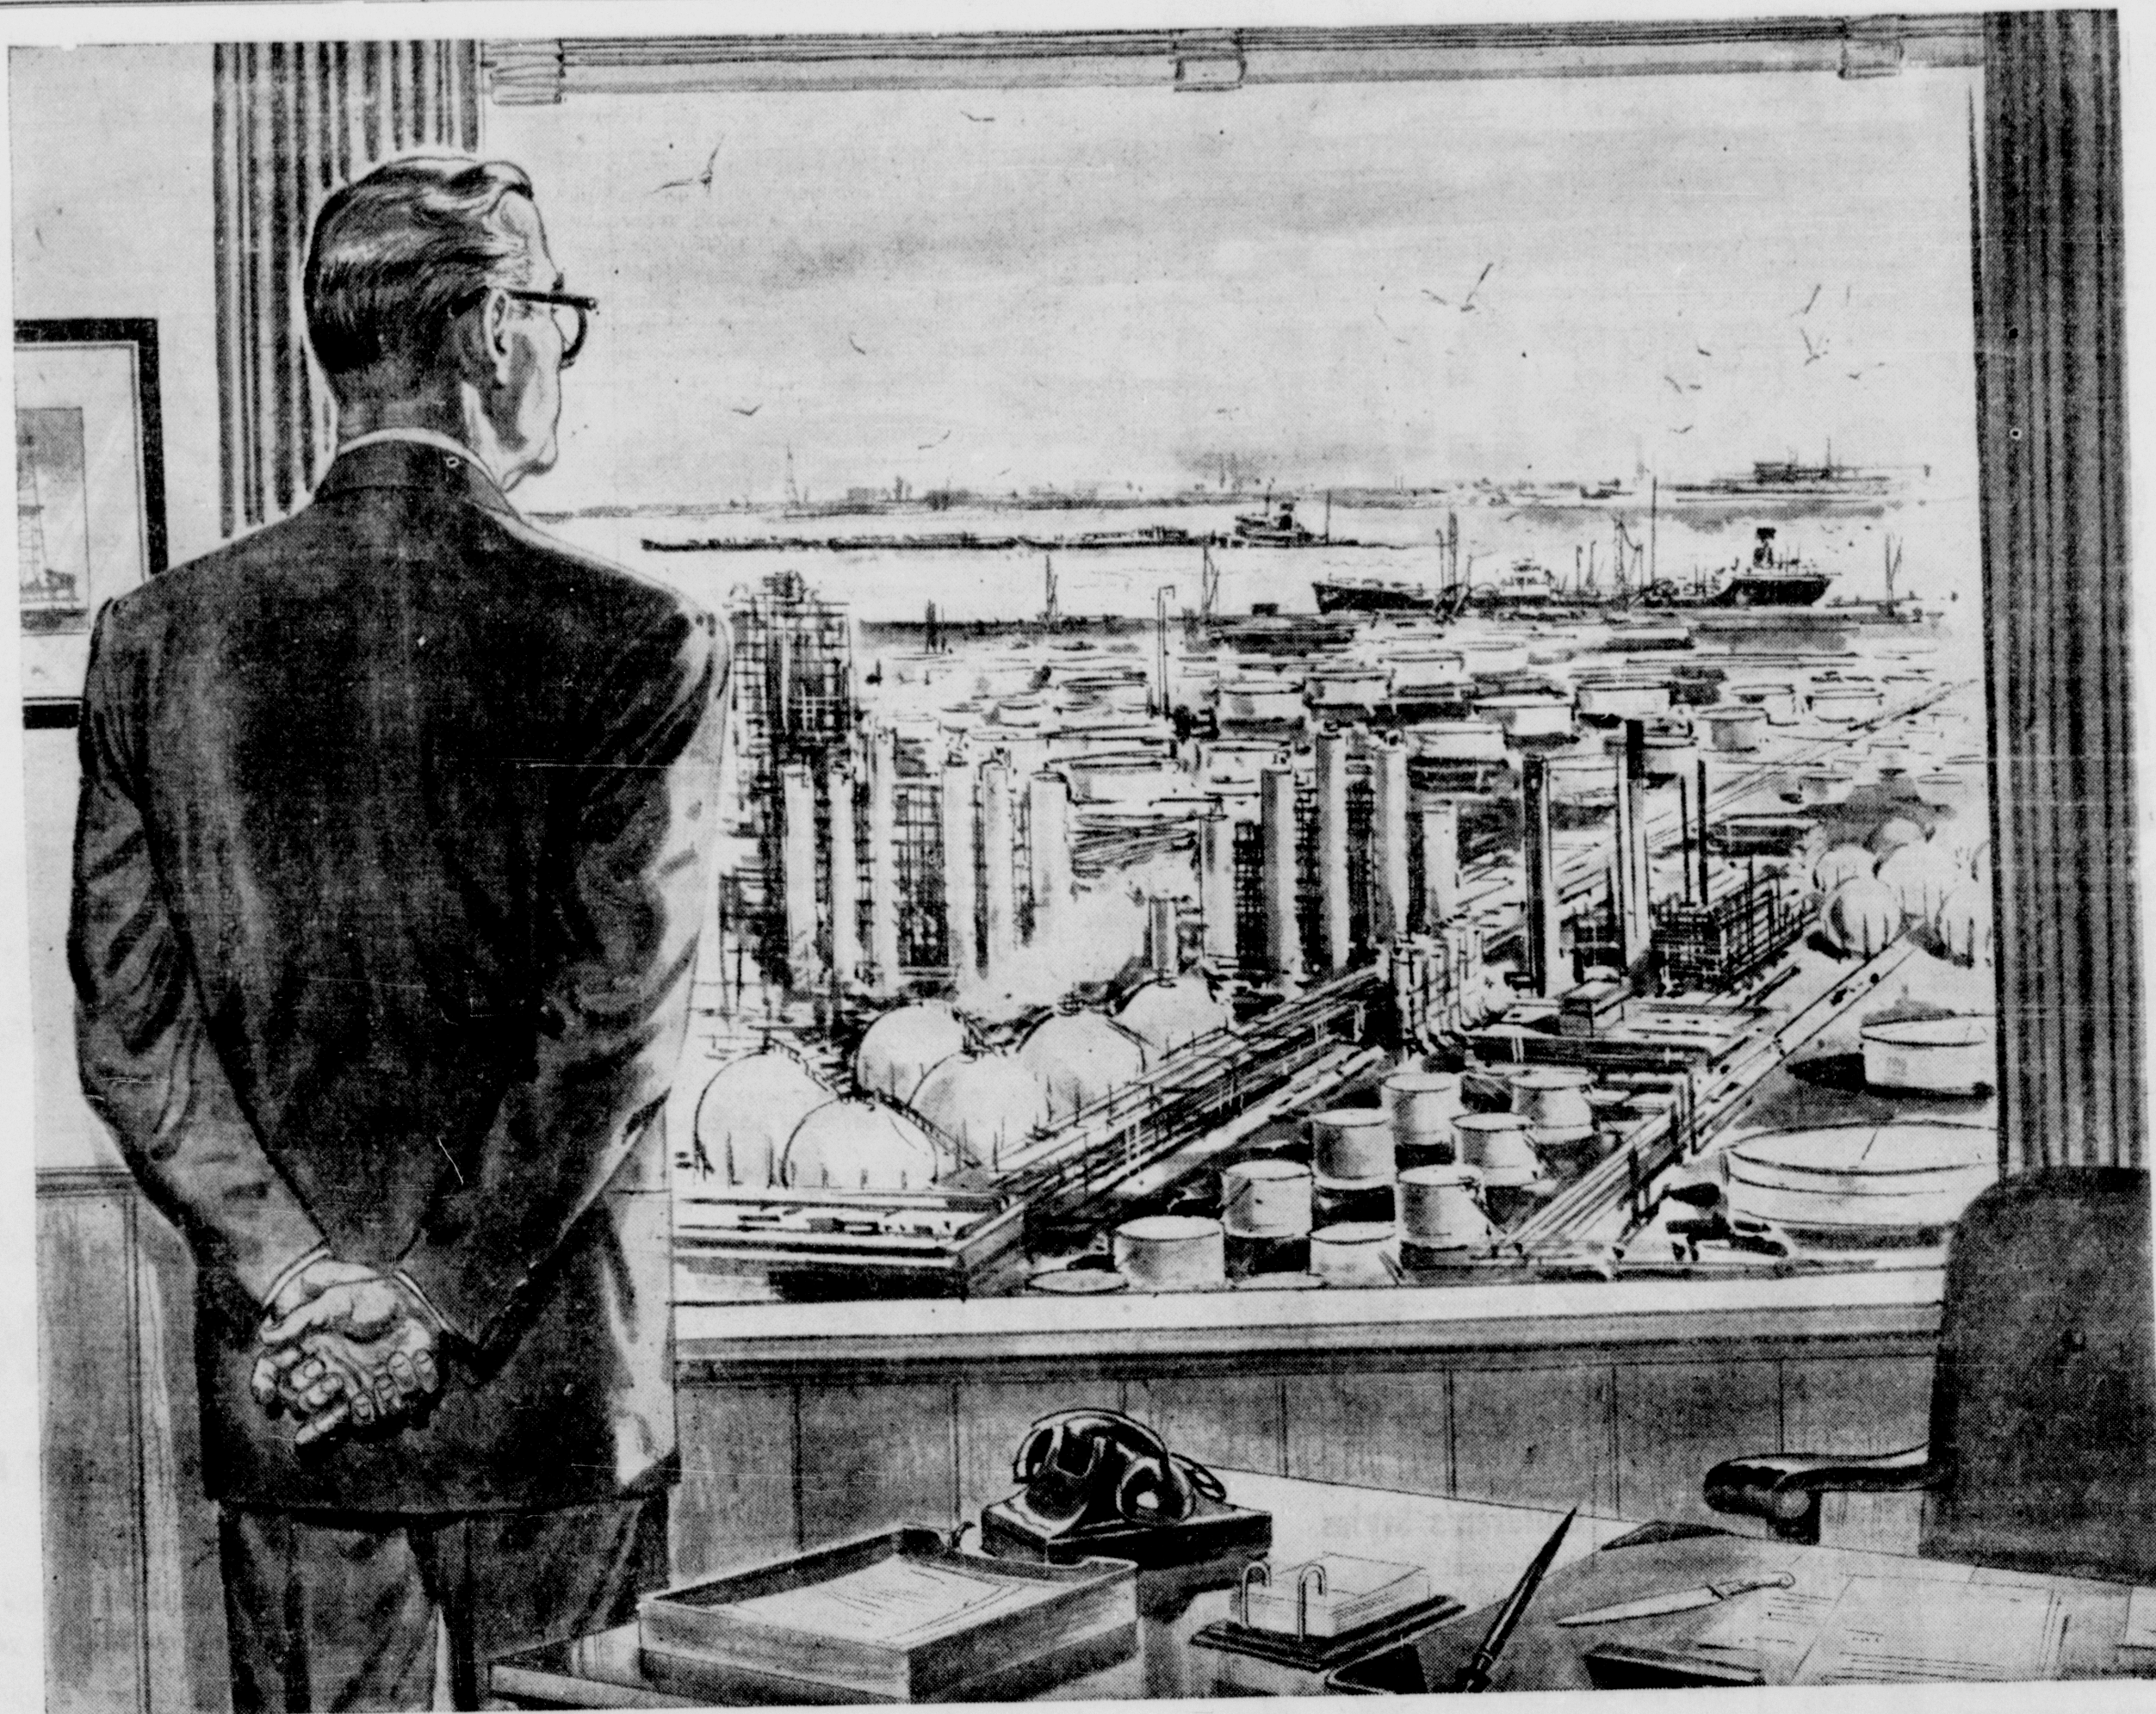

The offices of all three congressmen here said that the State department had asked them to make this trip, and had taken the lead in arranging air transportation for them.

Positive evidence of the State Department's part in planning the trip is the fact that Rep. Poage's office received two itineraries of the trip from the State department.

The State department reportedly wanted Pepper, as chairman of the Senate foreign relations committee's sub-committee on the Near East, and Cooley and Poage as chairman and No. Two man in the house agriculture committee, to get a first hand look at the Near East and some of the departments activities and problems there.

Mrs. Dan Thweatt and son, Finis made a business trip to Marlin Friday.

Miss Ina Jean Kirk who is employed by the Houston Power and Light Company in Houston will be visiting in Cameron over the week end.

Oil has been ready!

Today the U. S. oil industry will be called on to supply the United States with 6,400,000 barrels of U. S. oil. It supplied that amount every day last week, and will supply it every day this week and next. It is a million barrels a day more than the peak of World War II, and it is 65% more than it was in 1940.

An increasing amount of today's oil goes to the needs of national defense, but the bulk of it supplies power for the millions of cars and trucks on American highways, the hundreds of thousands of tractors on American farms, and for the industries that make all the things that add up to a high American standard of living.

More cars, more tractors, more industries mean a need for more oil, year after year. This need has required the oil industry to look far ahead, to keep itself more than ready to supply current needs. It must be able *quickly* to meet increased demands.

And it is. Since World War II, U. S. oil companies have plowed back into the development of U. S. oil resources about

\$8 billion to find more oil, to increase oil production, to extend pipe lines and build tankers, to increase and improve refining capacity.

So the oil industry has *been* ready for the Korean emergency all along. It supplies today's greatly increased demand for oil in its stride. As still heavier demands are placed upon it, the industry is confident that it can supply them, too. It will be a big job. And make no mistake about it: it will involve many problems; consumers may be called on to make sacrifices; the job will require time for change and adjustment. But the oil industry is better prepared than ever before to take it on.

YOEMEN SWAMPED BY THE RAMPAGING DUCKS

Cameron Yoemen were defeated by the Taylor Ducks Friday night in their conference opener in district 21-A by a score of 38-7.

The Ducks scored in the first, second and fourth quarters behind the fast running and passing attack of Talley, Moegle and Novosad, Taylor backs.

Taylor scored in the middle of the second quarter with power plays originating on the Ducks 20 yard line and in consecutive plays pushed over from the Cameron 18 yard line with Moegle skirting right end for the first tally.

After an exchange of punts the Ducks drove to the Cameron 28 yard line and at this point Talley tossed a pass to Moegle who went over standing. Try for extra point failed.

In the second quarter Raymond Holmstrom intercepted Eddie Lankford's pass intended for Glenn Rosenberg and in several cracks at the Yoemen line made a number of first downs, then Talley passed to Tex Ricards to the 2 yard line and Moegle powered over on the next play. Talley's kick was good making the score 19-0.

A few minutes before the half ended, Moegle intercepted Eldon Batte's pass intended for Malone on the Taylor 40 and in several plays moved on down the field to score for the fourth time.

The Yoemen scored their touchdown in the third quarter when Glenn Rosenberg took a punt on his 12 yard line and handed off to Lankford who behind perfect blocking of the entire Cameron team was able to go all the way for 88 yards for the touchdown. This was the most sensational

play of the entire game and the Cameron fans came to their feet in an outburst of cheering. Glenn's toe added the extra point.

The remainder of the third quarter the Cameron defense stiffened and Ermis, Thompson, Stanislaw, Allen and Johns and other Yoemen held and the Ducks were unable to score in the third period.

Shortly after the final quarter opened, Boegle intercepted Lankford's pass intended for Logan on the Yoemen 42 yard line. The Ducks again took to the air and Talley hit Moegle with another pass from his 22 yard line and Moegle took it inside the 10 and carried on over for the score. Novosad's try for extra point was good.

The Ducks final tally came on another pass and the Talley-Moegle running attack with Talley making the final td. Novosad missed the try for point.

The Yoemen again went to the air but were unable to score again on the Ducks as the game ended.

The meeting was closed by Marjorie Richter.

The Yoelets Defeat Brenham's B Team 19-0 Thursday Night

Cameron B Squad defeated Brenham B Team by a score of 19-0 Thursday night in Brenham.

During the first half the Yoelets were unable to score, but as soon as the third quarter got underway, the Yoelets recovered a bad pass from center behind the goal line for the first touchdown.

Late in the third quarter the Yoelets put on an offensive drive with George Bryan carrying over from the six yard line. Burrell Turner added the extra point.

In the final quarter the Yoelets capitalized on a fumble on the Brenham 20 yard line and in four plays scored the last touchdown with J. W. Beale going over from the 8 yard line.

The Yoelets dominated the field during the entire game but were unable to click on the pass offense but their power plays off the single wing formation gained considerable yardage.

The Yoelets will meet the Taylor B Team here on Thursday night at 7:30 at the Athletic Field, this will be the only game played in Cameron this week.

Mrs. L. R. Johns and daughter spent the past Sunday in the home of Mrs. Henry Johns at Ben Arnold.

The Cameron Herald October 19, 1950 Methodist Boys Are Entertained Sunday

The girls of the Senior Department at First Methodist honored the boys with a kickoff party Sunday night, October 8.

The party was held in the fellowship hall of the Church after the evening services and lasted until 9:30. Each member brought a friend and various games were enjoyed during the evening.

The group was served a chili supper, prepared by Mrs. Ruth Rosson, Mrs. Clarence Hinyard and Mr. and Mrs. John Henderson.

trucking need

Think twice today
when you buy a truck!

THAT new truck you're considering may have to last a long time. So you'll be wise to look at a GMC for these important reasons.

GMC's are built by the world's largest exclusive manufacturer of commercial vehicles—with the broadest truck engineering experience.

GMC's are real trucks. Engine, transmission and frame, as well as cab and axles, are all specially truck-built to give you longer service.

GMC truck-built engines have high horsepower with higher sustained torque—greater pulling power. They are built to give extra years of service with less maintenance.

Get a real truck!

GMC extra-value features include Synchro-Mesh transmission, Tocco-hardened crankshaft, full-pressure lubrication, recirculating ball-bearing steering gear, airplane-type bearings and Lifetime Weather-sealed cabs as standard equipment on practically all models from 1/2 ton up.

That's why more truckers are buying GMC's today than ever before—experience proves them best in the long haul!

8-FOOT FIELD CULTIVATOR

FINGER-TIP CONTROL

Matches WD Tractor Power

Here's an outfit that's hard to beat for renovating pastures, alfalfa and lespedeza stands, for killing grass and weeds, and for tilling summer fallow land . . . in addition to seedbed preparation.

This 8-foot field cultivator is automatically controlled by the WD Tractor hydraulic system—finger-tip depth control. Wheel spacing—easily adjusted with engine power—permits setting of wheels for stability and even penetration on rough or rolling land; reduces "gouging" and "scratching."

Compact design simplifies work in corners, small areas and right up to fence lines. Heavy-duty, all-steel construction.

Now you can have a field cultivator that is designed and built for modern tractor power. Stop in and see it.

1951 Labor Supply Is Being Talked; Church Women Hear Leaders

The United Council of Church Women held a meeting at the First Christian Church Thursday October 12 at 3 p. m. it was disclosed by Mrs. J. L. Callaway, president.

Miss Helen Meserve of Chicago, Staff Migrant Worker, gave a lecture on the Mexican migratory labor situation in Texas and pointed out the necessity of making arrangements and housing accommodations for transient laborers during the harvest season. She said since the government has lifted restrictions on cotton acreage in 1951 this area may need a considerable amount of migrant labor next year and should make plans for that need right now.

Miss Viola Amstrutz, China Relief Workers, and Miss Ella Williams who recently made a good will tour of

Europe assisted Miss Meserve and held an open discussion on problems that arose after the lecture.

Labor this year has been plentiful on account of acreage control and the drought which has made the crop short in this area.

BAKE YOUR THANKSGIVING FRUIT CAKE NOW

Photo by Crisco

It may sound a little premature to talk about Thanksgiving, but now is the time to make your Thanksgiving Fruit Cake. Then it will be just right for the holiday, says Winifred S. Carter, who directs Procter & Gamble's Household Information Service. In fact, she recommends you make extras, to keep for Christmas gifts.

Here are Mrs. Carter's general tips on making fruit cake:

CARE OF FRUIT

Wash all dried fruit, preferably in warm water.

"Plumb" it in colander over steam bath.

To increase sugar content, let stand overnight in sugar syrup, fruit juice, or wine. (See recipes below). This improves keeping quality and tenderness of fruit. Dry or hard candied fruits may be softened in the same manner.

One-half cup sugar and one cup water will make sufficient syrup for two pounds of fruit.

Use ½ cup fruit juice or wine to each pound of dried fruit.

Recipe for four 2-pound cakes:

- 1 pound seeded raisins
 - ½ pound figs or pitted dates
 - ½ pound dried apricots
 - ½ pound prunes
- Wash, drain and chop fruit into small pieces.
- ½ pound chopped citron
 - ½ pound diced candied orange peel

- ½ pound coarsely cut candied pineapple
 - ½ pound whole candied cherries
 - 1 cup fruit juice or sherry
- Add and mix well. Let stand overnight in covered container.
- 1 cup Crisco
 - 1 cup light brown sugar
 - 6 eggs
 - 2 cups sifted flour
 - 1 teaspoon salt
 - 1½ teaspoons cinnamon
 - ½ teaspoon mace
 - ½ teaspoon allspice
 - 1 cup blanched almonds (¼lb.)

Cream Crisco and sugar by hand or mixer (medium speed). Add eggs one at a time beating after each addition. Add sifted dry ingredients. Stir fruit mixture and almonds into Crisco batter. Blend thoroughly.

Line three 9"x4"x3" pans with heavy waxed paper, or two layers of thin waxed paper. Fill pans with batter to desired height as there will be little increase in size during baking. Decorate top with cherries, almonds and pineapple bits.

Bake in a slow oven (270°F) for about 2½ hours for a 2-pound cake, longer for larger cakes. Allow to stand in pans until cool.

STORAGE

Thanksgiving fruit cake can be stored (unwrapped) in a ventilated can. If you keep the cake for a longer period of time, wrap in waxed paper or aluminum foil and store it in a covered container. A slice of raw apple placed in with the cake improves its flavor and moistness.

Mrs. Alford, Agent Gives H. D. News

Remember October 24th, United Nations Day, fly your flags and attend a U. N. Program.

The Hoyte H. D. Club met with Mrs. Bill Storey on Tuesday afternoon October 17. The Home Agent had a demonstration on work simplification and fall and winter flower arrangement.

The Home Agent, with the County Agent, met with the Burlington 4-H club boys and girls on Wednesday, October 18, for a regular meeting. The girls were given a demonstration on personal grooming.

Tracy H. D. Club met in the home of Mrs. Roy Harris Thursday afternoon, October 19, for a regular meeting with the Home Agent. Work simplification was the demonstration

RECIPE OF THE WEEK
Graham Cracker-Date Cookies
1 small box graham crackers (crumbled)
1 can sweetened condensed milk
1 package dates (chopped)
1 cup nuts (chopped)
1 teaspoon vanilla
Combine all ingredients in the or-

der named. Drop by teaspoonfuls on greased baking sheet. Bake in a moderate oven 350 degrees F. for 35 minutes. Yields about 4 dozen, number depending upon the size.

The Buckholts 4-H club girls had a regular meeting with Mrs. Alford on Thursday morning, October 19.

Forest Grove H. D. Club met in the Community Building Wednesday afternoon, October 18, with the Home Agent.

The Delphian Club of Cameron had a program on the United Nations and flew a U. N. flag on Tuesday, October 17. The Hoyte H. D. club furnished the flag.

Cook vegetables whole and unpeeled where possible. More food value is retained by using this method.

The Bethlehem, Duncan, and Clarkson H. D. Clubs met in their respective communities and elected officers for the new year.

Most of the U. N. Flags are made and ready to be delivered to the schools and organizations to be flown during U. N. week, October 19-24. Programs are being planned all over the county. It would be worth your time to attend one of these programs on October 24, United Nations Day. Milam County H. D. Council will

have its regular meeting at 2 p. m. October 23, in the basement of the Peace Lutheran Church of Rockdale. Council members are urged to meet and elect the new officers for the new year.

TIMELY TIPS

1. Keep a supply of cookies on hand for quick desserts and for the hungry school youngsters who need a mid-afternoon pickup.
2. The graham cracker-date cookies become even better after several days storage.
3. For variety, try adding chopped apples to bulk sausage before they are formed into patties.
4. Plan to serve at least one raw vegetable per day. Suggestions are to combine them in salads, serve carrot or celery sticks, onion or pepper rings, sliced tomatoes, cauliflower flowerlets, etc.

14,582 Bales Ginned In County In 1950

There were 14,582 bales of cotton ginned in Milam County from the crop of 1950, prior to October 1st, it is reported by J. H. Barnes, of Buckholts, Special agent for the Department of Commerce.

Up to the same date in 1949, a total of 18,789 bales were ginned. From these figures it can be seen that the county is 4,207 bales behind the 1949 figure. The 1950 crop is not due to exceed 16,000 bales.

Mr. and Mrs. H. G. Haraway and children were guests in the home of Mr. Haraway's mother in Paris, Texas over the week end.

EXPORT LIMITATION BLAMED FOR DECLINE

Cotton has declined \$13.75 a bale since the opening of the market Monday and declined one and a half cent more on Wednesday.

Middling cotton was quoted at \$37.75 Wednesday and this is two and three quarter cents less than Saturday's price, making the total decline \$13.75 per bale.

Milam County's cotton crops was substantially harvested and due to the high prices, has in major part been sold by the producers.

The market reacted unfavorably because the government's announcement that it would export only 3,000,000 bales whereas the cotton trade planned to export 6,000,000 bales. It is the same as increasing the crop by 3,000,000 bales they pointed out.

MOSCOW SENDS MESSAGE TO NORTH KOREANS

Russian Premier Josef Stalin wished the North Koreans success today in the "struggle for independence" as United Nations forces battered their way north of the 38th parallel in a drive on the North Korean capital.

Stalin addressed his message to North Korean Premier Kim Il Sung who has ignored Gen. Douglas MacArthur's "last" surrender demand and ordered his Communist troops to fight to the finish against the United Nations forces.

Messages Exchanged
Stalin and Kim exchanged messages on the second anniversary of the establishment of diplomatic relations between Russia and North Korea. Moscow radio's broadcast of the messages was relayed by the Soviet monitor in London.

Stalin's message said: "I wish the Korean people who are heroically defending the independence of their country the successful completion of their long years of struggle for reestablishment of a united independent democratic Korea."

Stalin did not mention the Korean war directly, but his message was in reply to a message from Kim who said the Soviet's foreign policy "strengthens in our people the belief in the victorious completion of the sacred liberation war against the American interventionists and their lackeys—the traitorous Syngman Rhee clique."

"We know that in this war the support and sympathy of the peace-loving people of the world headed by the great Soviet Union are on the side of the Korean people."

Out front with the finest yet priced with the lowest

These days you can't tell from the price tag how much quality a car holds. Ford, for example, is still priced with the lowest... yet in other respects it's in the fine car class. Take its styling, for example, for two years in a row Ford has been the recognized fashion leader.

Like America's finest cars Ford offers you a V-8 engine. No other low-priced car does. Nor does any other car at any price offer you a choice of V-8 or Six engines. And remember, Ford's V-8 costs hundreds less than most sixes—Ford's Six costs even less.

SCHOOL BOARD DECLINES—

(Continued from page one)
Duda for clarification on whether Catholic children could be transported if the parochial school were operated under the jurisdiction of the public school system.

They were told that such could be done only if the Catholics relinquished religious domination of the school and if they would renounce any intention to teach the Catholic religion to the students.

In an effort to continue transportation for the Catholic children, which has been done in violation of the law by the board, a new plan was thought up and laid before the state board.

When the school board convened Wednesday night, Father Duda revealed that he had no intention of foregoing the teaching of Catholic church history and other religious rituals, peculiar to the faith. He was told frankly that the board would not consider any such plan.

Dr. Swift, in opening the meeting asked Father Duda to present his proposition. He turned to Mr. Hanes and asked him to explain to the board what he wanted. Mr. Hanes told the board what was said at Austin, briefly, that the state will not operate a school under religious domination.

Mr. Hanes pointed out that this provision applies to all religious denominations and although Father Duda was re-assured by members of the board that there is no question of discrimination over religion, Father Duda told the board "they are unfair to Catholics on the transportation issue" and went on to say that he could make no decision now on whether to make a public school out of the parish school, nor could he relinquish the church's vested religious rights in parochial education;

that he would have to consult the Bishop, his congregation and look into the matter more completely.

Father Duda turned to Ralph Michalka, Catholic member of the board, to inquire his opinion. Mr. Michalka said nothing hasty should be done.

Frank Reid, member of the Christian Church, asked Mr. Hanes if the school could accommodate the increased attendance. He was told that more students could be taken into the High School but conditions at the Ada Henderson School are crowded, but adjustments could be made to accommodate them.

Mr. Reid asked Father Duda why he had come to the board with such a proposition when he was unwilling to forego religious control of the school. Father Duda made no reply.

Father Duda then asked the board if they would agree for him to carry on their religious curriculum before, after school or during recesses.

Dr. Swift told the priest that the buses would have to run on schedule and no such accommodations could be arranged.

Superintendent Hanes said authority for the conduct of a public free school system under the law is vested largely in the Board of Education at Austin.

Laws governing public free education do not recognize nor will it permit the exercise of any religious rites whether before, after or during school hours.

Joe Gerick and Rube Johnson, representing St. Monica's Parish, accompanied the priest to the meeting.

Mr. Gerick asked the board if the parish surrendered its school to the public school system, whether the board would be willing to employ the Sisters to teach.

Frank Reid told Gerick that no such agreement could be made; that anyone teaching in the public schools would have to submit their credentials and be elected or rejected in the discretion of the board.

Mr. Gerick and Mr. Johnson asked Father Duda to agree to a complete surrender of religious rights of the school and to agree to a one year trial of this arrangement. The Priest rejected this suggestion.

Father Duda told the board that in West and Bremond the Catholics retained their religious rights in the

school but are a part of the public school system.

Mr. Reid said he could not continue as a member of the board, under his oath, and submit to a system that would permit propagation of religion.

Charles Allday, secretary of the board and a member of the Methodist Church, said that if these practices are going on in any city or school district anywhere it should be investigated and a report made to the State Board of Education.

Mrs. Clifton Jenness and Frank Cheeves, of the Board, both members of the Methodist Church said they are willing to take over the parochial school if the law is complied with and that Catholic students are required to have the same courses of education as for other children in the school system.

The meeting was prolonged and ended without any vote being taken.

Bill Wallace, also a member of the Methodist Church, was absent, having to go to Fort Hood to answer a summons by the military.

Parking Meter Revenue Declines Here; Season Declined By Officials

Meter revenues were continuing to decline here and this week the total was \$229.88.

Officials at the City Hall blame it on the season and are prone to believe that as weather gets cooler traffic will decline.

At the figure for the present, revenue in a year will be more than \$10,000 and these additional funds are as zestful as a blood transfusion to a sick patient because the City is using this money to pay increased salaries and for other routine costs.

Mr. and Mrs. Raymond Fikes of Houston have been visiting in Cameron several days with friends and relatives.

Mr. and Mrs. R. M. Conner, Jr. of Brenham were in Cameron Tuesday visiting his parents.

City of Cooper Sells Power Plant To Texas Power & Light Co.

Sale of the City Light Plant to the Texas Power & Light Company was approved by the voters of Cooper in a special election Friday, October 6, by a vote of 424 to 295. For the past 15 years the City has been served by both TP&L Company and the city light plant.

Sale of the electric properties to Texas Power & Light Company recommended by the Cooper City Commission. In an article published in the Cooper Review prior to the election the City Commission said: "If the plant is not sold the city will be compelled to purchase a new engine and a large cooling system which will cost at least \$50,000. In addition to buying the new engine and cooling system it is going to be necessary to spend a large sum of money re-wiring part of the town with heavy wire where the voltage is low."

The purchase of this new equipment was declared necessary in view of the fact the plant carried all the load it could handle during the last summer when the demand for electricity was constantly increasing. Without the new engine not only would it have been impossible to take care of any additional customers, but present customers could not have been properly served. "We recently had trouble with one of the engines and had to get the Texas Power & Light Company to take over four of our largest customers," the statement continued. "While the engine was being repaired we like to have burned up the two small engines."

Pointing out that if forced to spend an additional \$50,000 to \$60,000 for

engine, cooling system, rewiring and other repairs, this, plus outstanding bonds, would result in a total indebtedness of between \$138,000 and \$148,000. The City Commission was of the opinion that the plant could not operate and pay that amount of indebtedness in 25 years, because before that time they would be compelled to have new machinery and repairs again.

"The plant has been in operation about 15 years," the Commission reminded, "and we still owe \$88,000 of the original indebtedness of only \$104,000, which means the indebtedness has been reduced only \$16,000 in 15 years. You can see from past experience how long it will take to pay something like \$138,000 or \$148,000."

The article, which appeared over the signature of Mayor Tom Rountree and Commissioners M. F. Young and L. F. Hooten, emphasized that by selling the plant not only would the City be relieved of additional indebtedness on the properties, but also of the amount still owed. In addition, the money paid the City by

The Cameron Herald

Texas Power & Light Company could be used to pay on the bonded indebtedness of the City and permit a reduction in the taxes.

In expressing his satisfaction at the results of the election, W. W. Lynch, TP&L president, pointed out that immediately after the city property is taken over by the Company work will begin toward combining the distribution system of the City of Cooper and of the TP & L Company into one, and making other improvements needed to give Cooper the most modern and efficient electric service.

Why are more and more women switching to the new modern Electric Ranges?

They save time, trouble and money!

Yes, ma'am, a modern electric range saves you time, trouble and money... gives you a completely new outlook on cooking!

A new electric range saves you time, because it's fast —high-speed cooking units are instantly ready for use. An electric range saves you trouble, because it's modern... incorporates the newest cooking conveniences.

Accurate temperature control cuts on and off automatically, so that much of the cooking is done on stored heat. There's no smoke or soot to blacken pots and pans, grey walls and curtains when you cook electrically, so kitchen clean-up time is cut in half.

A modern electric range saves you money, because there's less food shrinkage. What's more... dependable electricity costs only one cent per person per average meal!

No wonder more and more women are modernizing their kitchens with new electric ranges!

Want a long run for your money?

Better Buy Buick!

You want a new car to be tops in things like style and room and comfort and power—
—and a thrill-packed fifteen minutes with the nimble number pictured here will show you it has all these things in abundant measure.

So you ask us—how about money? What does it cost to buy a Buick—and to own one?

All right—let us ask you some questions.

Take first cost. Do you know that Buick prices start down at a level below what you'd pay for some sixes—and that every Buick, on a cents-per-pound basis, is a stand-out buy?

Take operating cost. Do you know that the bang you'll get from Buick's Fireball power comes from a valve-in-head engine—recognized by engineers as a thrifty saver of fuel?

Do you know that owners of 1950 Buicks are writing us rave letters, saying that this year's version is the most economical Buick ever built?

Do you know that such comfort features as coil springs on all four wheels protect the car as well as the passengers—and throw in an extra saving because they need no servicing, and are practically breakproof to boot?

Do you know that Dynaflo*—in addition to keeping you fresh as a daisy on a day-long drive—caps its convenience with savings on tires, conveniences down the strain on transmissions and engines—and eliminates all friction clutch repairs, because it hasn't any?

Take final cost. Do you know that when the owner of a Buick gets a yen for a later model, the prices that Buicks command on a used-car lot are the ultimate proof of their long-run value?

So if you want a real run for your money, better buy Buick. And the first step is very simple: Go see your Buick dealer—soon—and get an order signed.

* Dynaflo Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

FOUR-WAY FOREFRONT—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

KOREAN REDS POCKETED NEAR THEIR CAPITAL

United Nations forces Tuesday punched to within 30 air miles of the communist capital of Pyongyang. A general breakthrough appeared in the making.

U. S. Eighth army headquarters reported spectacular gains on all fronts against negligible red resistance.

AP Correspondent Leif Erickson at Eighth army headquarters said the U. S. 24th division had captured Haeju just north of the 38th parallel, and then swung northward along a good highway toward Pyongyang.

Aerial observers said—without confirmation—they say U. S. 24th division troops 10 miles south of Sariwon, important road junction only 35 miles south of the Red capital.

This would represent an advance of 52 miles since Sunday when elements of the 24th spearheaded into Yonan, just south of the 38th parallel. At the start of the war it was the 24th division which bought time with blood in a slow and costly retreat.

The U. S. First cavalry division was reported about 19 miles east of Sariwon on the primary highway to Pyongyang.

On the east coast, the South Korean Capital division punched within three miles of the big communist industrial center at Hamhung, a Red supply point.

The Capital division, aided by strong naval air support, pushed one column through the highway town of Chigyeong to a point within three miles of Hamhung. Another column advanced through Yonpo toward the outskirts of Hungnam the part for Hamhung. The advances presented gains of 21 to 24 miles in a single day.

Opposition to this dual advance only 110 miles south of the Korean-Manchurian border was confined to small arms fire.

The South Korean First division was closest to Pyongyang. An Eighth army spokesman reported these Republican troops drove one column 10 miles west of captured Suan to a point 30 air miles southeast of the communist capital. Another column was three miles northwest of Suan on a secondary road to the communist citadel.

Earlier the First division's commander, Gen. Piak Sun Yu predicted his men would reach Pyongyang in three days "if everything went as planned."

The South Korean Eighth division was last reported 50 miles southeast of Pyongyang on the right flank of the fast moving first Republican division. The Eighth division took Koksan after an 18 mile thrust in 12 hours.

Headquarters officials said the push by the Capital division on Hamhung was the "big news" of the moment since the city was one of the Red's

last supply-producing points. Its fall would put a further strain on the Reds fast ebbing ability to keep their troops supplied.

The United Nations now had more than 60,000 troops driving deep into North Korea for the final blows of the war.

Gen. MacArthur also had available for action five more American divisions and two combat teams, including airborne infantry, Australian and Philippine troops and at least four more South Korean divisions.

Military circles in Tokyo believed the Korean war might be over in weeks.

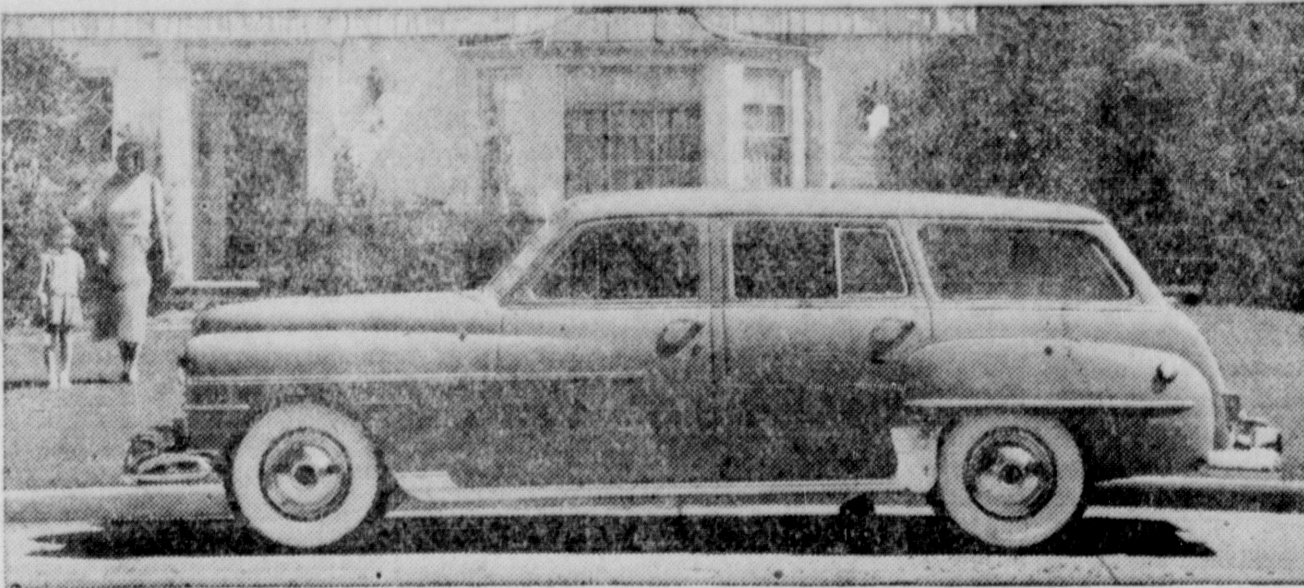

DAUGHTER TO THE TINDALLS

Mr. and Mrs. Monroe Tindall of San Antonio announce the arrival of a daughter born Friday, October 13, 1950 at Santa Rosa Hospital in San Antonio. The baby weighed six pounds. Grandparents are Mr. and Mrs. H. C. Tindall of Cameron and Mr. and Mrs. Floyd Miller of Terrell Wells.

Mrs. Rosa Lee McFarland is ill from an infected eye but is reported to be improving. Mrs. McFarland is on the employment staff of The Cameron Herald.

Mrs. Albert Horstmann held a critique on arrangements made by club members. She gave an interesting talk on the Horticulture of the following: All types of bulbs, Dutch Iris, pansies, roses and chrysanthemums.

Mrs. Morris Eplen gave an informative talk on color harmony in floral arrangements and pointed out how essential harmony is in the color scheme.

The flower show committee met after the meeting adjourned to make plans for the annual Christmas flower show.

The next meeting will be held on November 9.

Miss Edith Baldrige, Freshman student at Mary Hardin Baylor College in Belton visited her parents here over the week end. She was Valedictorian of her graduating class in June and was formerly employed by the Herald.

Be ready to take the plunge

Like your job? Want to make it your life's work?

That's good, if you do!

But maybe ten years from now you won't be happy with any job! Maybe you'll want to strike out on your own—start your own business.

If and when that time comes, be ready for it. Be ready to make the most of every opportunity—to take the plunge if you want to.

How can you get ready?

Start saving now, today. Put away a little (or a lot, if you can) every month. Put it away in U. S. Savings Bonds.

Then at the end of ten years you'll get back \$4 for every \$3 you invest today. Suppose you save \$18.75 in Bonds every week? By 1960 you'll have \$10,828.74.

Enough for a plunge? You bet, but just be careful to look before you leap.
